ENGINEERING MERIT BADGE WORKBOOK

This Scoutmaster Bucky Merit Badge Workbook is based off the current Scouts BSA Requirements.

Consider also using the Engineering merit badge class preparation page for clarification and expections when participating in a Scoutmaster Bucky merit badge opportunity (online or in-person).

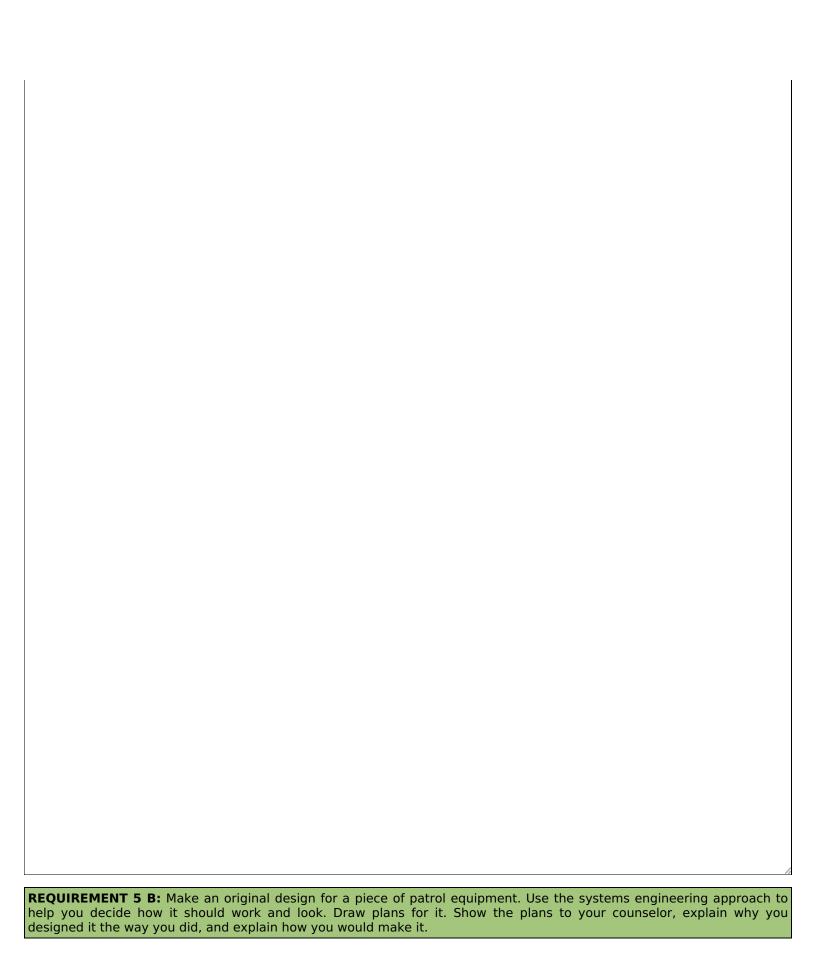

https://scoutmasterbucky.com/merit-badges/engineering/

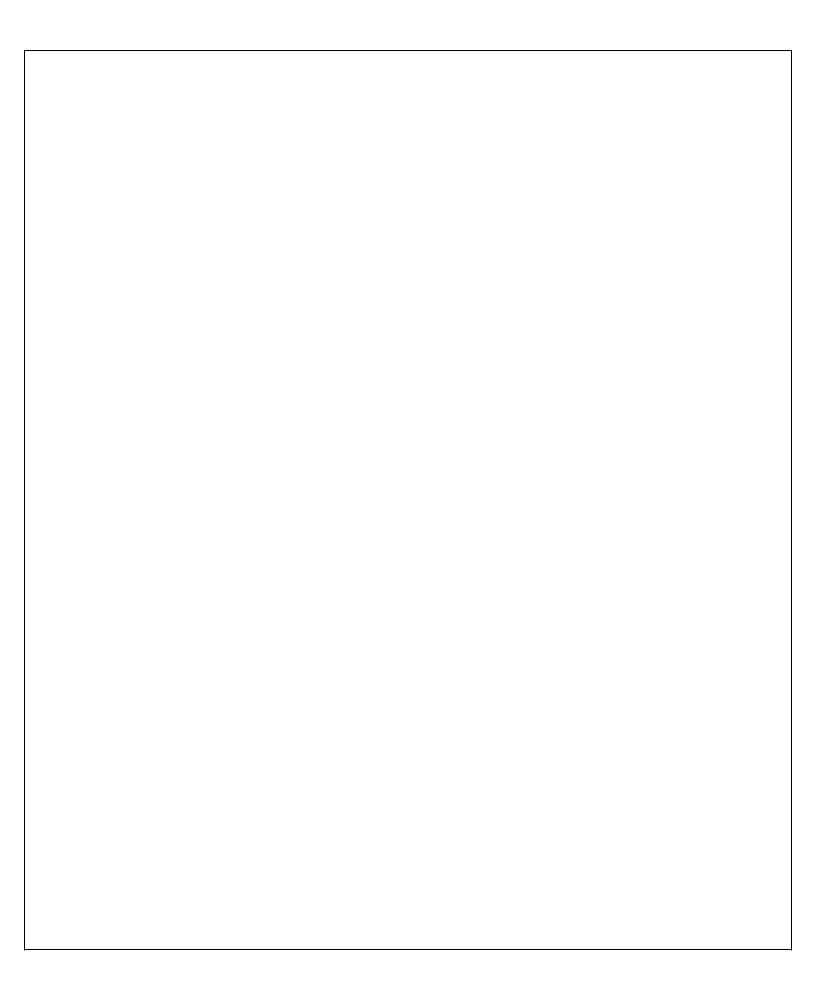

Scout's
Traine.
REQUIREMENT 1: Select a manufactured item in your home (such as a toy or an appliance) and, under adult supervisio and with the approval of your counselor, investigate how and why it works as it does. Find out what sort of engineerin activities were needed to create it. Discuss with your counselor what you learned and how you got the information.

REQUIREMENT 2: Select an engineering achievement that has had a major impact on society. Using resources such as the Internet (with your parent's permission), books, and magazines, find out about the engineers who made this engineering feat possible, the special obstacles they had to overcome, and how this achievement has influenced the world today. Tell your counselor what you learned.
The selected engineering achievement
The engineers who made this engineering feat possible
The special obstacles they had to overcome
How this achievement has influenced the world today
Thow this achievement has initidenced the world today

REQUIREMENT 3: Explain the work of six types of engineers	. Pick two of the six and explain how their work is related.
Engineer type	The work covered

REQUIREMENT 4: Visit with an engineer (who may be your o	counselor or parent) and do the following:
REQUIREMENT 4 A: Discuss the work this engineer does and	d the tools the engineer uses.
-	
	le

REQUIREMENT 4 B: Discuss with the engineer a current project and the engineer's particular role in it.
REQUIREMENT 4 C: Find out how the engineer's work is done and how results are achieved.
REQUIREMENT 4 D: Ask to see the reports that the engineer writes concerning the project.
Completed
REQUIREMENT 4 E: Discuss with your counselor what you learned about engineering from this visit.
REQUIREMENT 5: Do ONE of the following:
REQUIREMENT 3. DO ONE of the following.
REQUIREMENT 5 A: Use the systems engineering approach to make step-by-step plans for your next campout. List alternative ideas for such items as program schedule, campsites, transportation, and costs. Tell why you made the choice you did and what improvements were made.

REQUIREMENT 6: Do TWO of the following:
REQUIREMENT 6 A: <i>Transforming motion.</i> Using common materials or a construction set, make a simple model that will demonstrate motion. Explain how the model uses basic mechanical elements like levers and inclined planes to demonstrate motion. Describe an example where this mechanism is used in a real product.
Made a model
How the model uses basic mechanical elements
An example where this mechanism is used in a real product

Explain your results	
What energy is and how energy is converted and used in your surroundings	

REQUIREMENT 6 F: Moving people. Find out the different ways people in your community get to work. Make a study of traffic flow (number of vehicles and relative speed) in both heavy and light traffic periods. Discuss with your counselor what might be improved to make it easier for people in your community to get where they need to go. Different ways people in your community get to work Notes about the study you performed What might be improved to make it easier for people in your community to get where they need to go

REQUIREMENT 6 G: Building an engineering project. Enter a project in a science or engineering fair or similar competition. (This requirement may be met by participation on an engineering competition project team.) Discuss with your counselor what your project demonstrates, the kinds of questions visitors to the fair asked, and how well you were able to answer their questions.
Entered a project in a science or engineering fair or similar competition
What your project demonstrates
The kinds of questions visitors asked
The kinds of questions visitors disked
How well you were able to answer their questions

REQUIREMENT 7: Explain what it means to be a registered Professional Engineer (P.E.). Name the types of engineering work for which registration is most important.
What it means to be a registered Professional Engineer
The types of engineering work for which registration is most important
The system of th
REQUIREMENT 8: Study the Engineer's Code of Ethics. Explain how it is like the Scout Oath and Scout Law.
·

REQUIREMENT 9: Find out about three career opportunities in engineering. Pick one and research training, and experience required for this profession. Discuss this with your counselor, and explain why might interest you.	this	education, profession
